2015

Our philosophy at HALO® comes from our commitment to putting babies' safety first. This guides us in all we do, including how we develop, manufacture, test, market, and service our products.

Helping Babies Sleep Safely

Our founder Bill Schmid and his wife lost their first born to SIDS. From this tragedy, HALO and its mission were born. For more than 20 years we've been educating parents about safe sleep practices and supporting charities such as First Candle/SIDS Alliance, CJ Foundation for SIDS and Canadian Infant Safe Sleep. Since 2005, the American Academy of Pediatrics has suggested the use of wearable blankets. Today, HALO® SleepSack® wearable blankets are the #1 choice of hospital nurseries in North America to help babies sleep safely from the start.

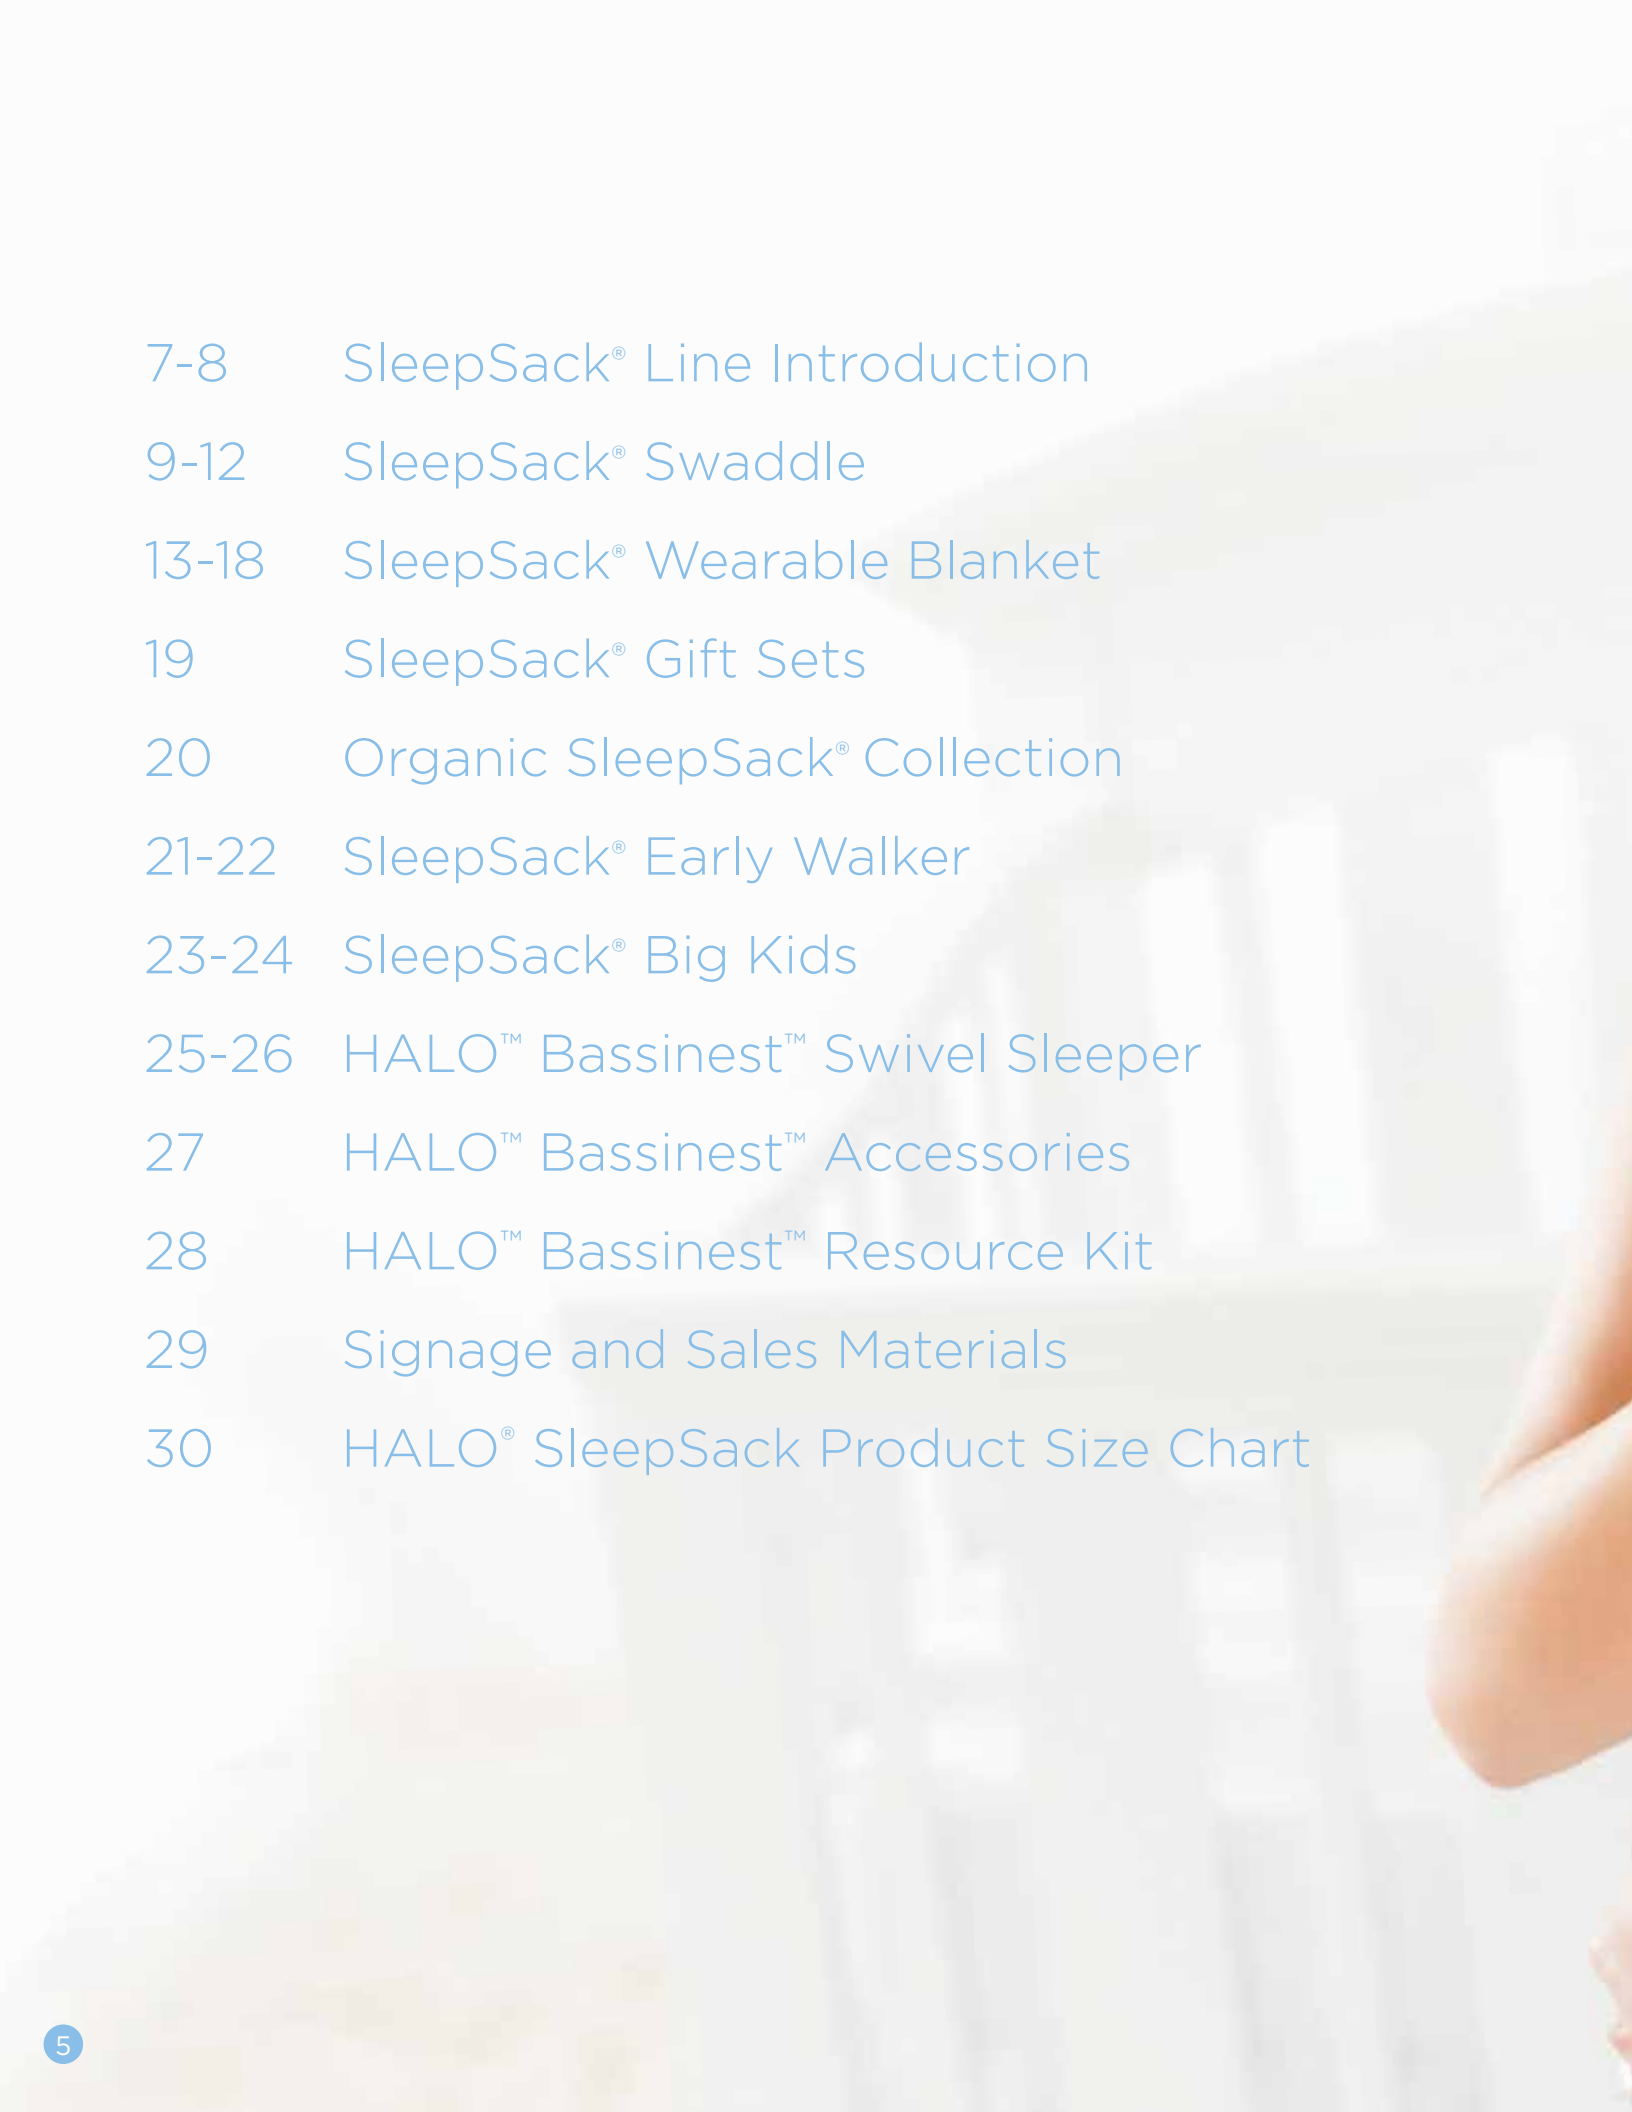

Bill Schmid, HALO's Founder

Helping to promote safe sleep education for all caregivers is part of our core mission. That's why we provide HALO® SleepSack® wearable blankets and safe sleep educational materials to more than 1,400 hospitals and support charities like First Candle/SIDS Alliance, CJ Foundation for SIDS and Canadian Infant Safe Sleep. In fact, we've donated over \$3.8 million dollars to keep babies sleeping safely from the start.

The HALO® SleepSack® wearable blanket is the #1 trusted choice of hospitals and parents to keep babies sleeping safely.

Safe, Sound Sleep. Everyone Sleeps Better with HALO®

HALO® SleepSack® wearable blankets replace loose blankets in the crib that can cover a baby's face and interfere with breathing. Plus, they are cozy blankets little ones can't kick off, for a better night's sleep. No wonder it's the #1 trusted choice of hospitals and parents alike.

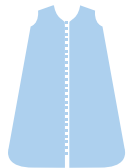

It's the safer way to sleep.®

Babies can grow with HALO.

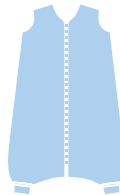

With sizes newborn to 5T, we have babies covered.

In addition to helping your baby sleep safer, the HALO® SleepSack® Swaddle helps baby sleep better, too. Its adjustable swaddle wrap immobilizes baby's arms to prevent the "Moro" or startle reflex. And, it is the only 2-in-1 adjustable swaddle that allows for swaddling arms in or arms out for baby's comfort and to ensure an easy and gentle transition to the SleepSack® wearable blanket when it is time to stop swaddling. **It's the easy and safe way to swaddle.**

"Back is Best" message reminds all caregivers to put baby on his back to sleep.

Sleeveless to help reduce the risk of overheating.

Arm and neck openings sized for a safer fit.

Strong, adjustable fasteners ensure a perfect fit and resist breakouts for more secure swaddling.

Roomy sack design promotes healthy hip development. *Recognized as "hip healthy" by the International Hip Dysplasia Institute.*

Inverted zipper for easy diaper changes. Won't pinch baby's chin.

2 in 1
 SWADDLE

The adjustable swaddle wrap lets you swaddle arms in and arms out for baby's comfort and an easy transition when it's time to stop swaddling.

Swaddling with HALO is easy, click to learn more.

The HALO® SleepSack® is the *original* wearable blanket. Created by Bill Schmid after losing his daughter to SIDS. The SleepSack wearable blanket has been carefully crafted to ensure all aspects of the product are the safest it can be. Like its sleeveless design, to help reduce the risk of overheating; a roomy, “hip healthy” sack to promote healthy hip development. And, the now iconic “Back is Best” embroidery to remind all caregivers to put babies to sleep on their backs. **Little details that make a big difference for the safety of your little one.**

Arm and neck openings sized for a safer fit.

Use over regular sleepwear instead of loose blankets.

Inverted zipper for easy diaper changes. Won't pinch baby's chin.

Sack design helps lessen the likelihood for baby's legs to get caught in crib rungs.

"Back is Best" message reminds all caregivers to put baby on her back to sleep.

Sleeveless to help reduce the risk of overheating.

Premium fabrics – always. Added chemicals – never.

Roomy sack design promotes healthy hip development. Recognized as “hip healthy” by the International Hip Dysplasia Institute.

What is TOG?

A TOG is a unit of measurement of thermal insulation used in the textile trade. The British "TOG" value is the international standard measurement of a blanket's thermal effectiveness, or how well it keeps you warm.

HALO® SleepSack® Early Walker

the original wearable blanket

The HALO® SleepSack® Early Walker replaces loose blankets in the crib. With its unique foot openings, it allows for greater mobility while little ones are awake, but also keeps little feet covered and warm while sleeping. With the HALO SleepSack wearable blanket little ones sleep better, too. It is a warm, cuddly blanket that can't be kicked off; ensuring little ones sleep soundly throughout the night.

Tuck feet in at night for warmth.

Babies can't kick it off, so they stay covered and warm

Sleeveless design allows for freedom of movement.

Sack design discourages little one from climbing out of the crib.

Inverted zipper unzips from the bottom to make diaper changes simple.

Foot openings provide mobility and comfort for toddler. Tuck feet in at night for warmth.

HALO® SleepSack® Big Kids

the original wearable blanket

Designed for little one's nighttime comfort and routine, the HALO® SleepSack® Big Kids wearable blanket prevents kids from kicking off their blankets so they stay warm and comfortable all night long. And, it's unique foot openings provide mobility while your little one is awake. Designed in response to countless parents looking for larger sizes of our wearable blanket, it's been "kid tested" and parent approved for comfort and ease of use.

Tuck feet in at night for warmth.

Sleeveless design allows for freedom of movement.

Generous sack design allows room for legs to move, but cannot be kicked off so your little one stays warm at night.

Inverted zipper makes night time bathroom visits easy.

Foot openings provide greater mobility when your little one is awake. Tuck feet in at night for warmth.

HALO bassinest swivel sleeper

Reduces
Bed-sharing
Risks

Swivel brings baby to mom
for close, safe sleep.

Ideal for
Caesarian
Mothers

Rotates to make getting in
and out of bed easy.

Side lowers, so tending to
baby from bed is easy.

Auto-return ensures baby always
sleeps safely. Wall locks, if desired.

Easier to see and
easier to soothe.

Baby is visible at eye level for easy
soothing, while mesh walls provide
maximum breathability.

Stable base adjusts to fit
beds 22" to 34" high.

Ideal for small spaces, requires
only 32" (81 cm) clearance.

Soothing made simple.*

Includes 3 lullabies, 3 nature & womb sounds,
2 levels of vibration, nightlight and nursing
timer, each with 30 minute auto-shutoff.

*Not available on the Essentia Series

Safer for Baby. Easier for Mom.

The revolutionary HALO™ Bassinest™ Swivel Sleeper is the only infant bassinet that moves. Now mom can sleep as close as she wants to her little one while her baby sleeps safely in his separate space. And the more it moves, the less mom has to – which makes taking care of baby throughout the night a lot easier.
